DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claim 22-28, have been renumbered 23-29.

Misnumbered claim 29-33, have been renumbered 30-34.

Misnumbered claim 33-47, have been renumbered 35-49.

Misnumbered claim 47-52, have been renumbered 50-55.

Misnumbered claim 59-61, have been renumbered 56-58.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-23, 29-31, 32, 33-34, 35-55 and 56-58, renumbered, drawn to a browsing method or Internet navigation, classified in class 709, subclass 226.
 - II. Claims 24 and 25-26, renumbered, drawn to monitoring time shifting of computer network, classified in class 709, subclass 223
 - III. Claim 27-28, renumbered, drawn to file accessing or database search by keyword, classified in class 707, subclass 3 and 10.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as browsing method or Internet navigation, Invention II has separate utility such as monitoring time shifting of computer network, and Invention III has separate utility such as file accessing or database search by keyword. See MPEP § 806.05(d).

3. A telephone call was made to contact JOHN MOETTELI on June 1st, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2151
